

Amendments to the Specification

Please add the following to page 8 of the Substitute Specification on line 5:

Figure 7 shows a fragmentary vertical section view of an antiseismic pad of a support device of the installation wherein the soleplate is not in contact with a support surface.

Please replace line 8 on page 14 of the Substitute Specification with the following:

Figure 7 shows soleplate 20 not in contact with a support surface. When the soleplate 20 is not with a support surface, e.g. while the
